1.6 Scoring:

- 1.6.1 In order to qualify for points in an event, registered competitors must be classified in the official results as a starter by completing at least one timed competitive run.

Scoring will be based on each competitor's fastest time set in any of the competition runs offered by the organiser. In the case of Force Majeure, should only one complete (i.e. for all competitors at the event) run be achieved then the Championship scores will be calculated on that run. If not all competitors at the event are given the opportunity to make one competition run and/or the organisers do not publish any official results the event will not qualify as a Championship round.

Should an event take place over two days, which constitute more than one Championship qualifying round, then all competition runs (i.e. excluding those designated as practice runs) offered by the organiser each day will be included for scoring purposes.

The awarding of Championship points will apply to each individual Championship class and registered competitors will be awarded points relative to other registered competitors in that championship class disregarding other competitors at the event who are not registered in the Championship. When classes at the event differ from championship classes then the Championship co-ordinator will re-structure the results of the event into Championship classes to obtain the relative positions within each class to award points

The points awarded for each Championship class at each qualifying event will be:

1st	5 points
2nd	4 points
3rd	3 points
4th	2 points
All other starters	1 point

12 additional points will be awarded to each registered competitor who improves on the appropriate Championship class record standing at the commencement of the event.

Additional points will be awarded based on each competitor's best time in relation to the appropriate Championship record standing at the commencement of the event as follows:

10 points	within 1.25% of existing record
8 points	within 2.5% of existing record
7 points	within 3.75% of existing record
6 points	within 5% of existing record
5 points	within 7.5% of existing record
4 points	within 10% of existing record
3 points	within 12.5% of existing record
2 points	within 15% of existing record
1 point	for setting a time

Where a Championship class record does not exist at the commencement of a qualifying event, the fastest time recorded by a registered Championship competitor in that class at the event will be deemed the existing class record. Thus, the competitor who records the fastest time and establishes a new record will score 10 additional points and the remaining competitors will score additional points in the following manner:-

9 points	within 1.25% of existing record
8 points	within 2.5% of existing record
7 points	within 3.75% of existing record
6 points	within 5% of existing record
5 points	within 7.5% of existing record
4 points	within 10% of existing record
3 points	within 12.5% of existing record
2 points	within 15% of existing record
1 point	for setting a time

Competitors will be allowed to accumulate points gained in different cars, registered on their entry form, or notified to the Championship co-ordinator within three days of the event if different, within the same Championship class.

A Competitor will be allowed to enter a different car in more than one Championship class by making a separate entry (with a Championship entry fee payable) for each class and will accumulate points separately in each Championship class, but may only qualify for an award in one class which will be that with the highest score.

No competitor may enter the Championship in the same car in more than one Championship class.

Points gained in up to nine of the qualifying events will count towards the Championship scoring. Should a competitor score in more than nine rounds the lowest scores will be dropped

Scoring records for the Championship will be maintained by the Championship Co-ordinator, Mrs Pat Toulmin. Updated results will be published on the HSA web site www.hillclimbandsprint.co.uk as soon as possible after each event.

Event organisers are expected to supply published results of the event to the Championship Co-ordinator by post, email or download within seven days of the event. Periodic bulletins of intermediate marking will be advised via the website www.hillclimbandsprint.co.uk.

The final results will be published on the HSA's web site as soon as practicable at the conclusion of the Championship

1.6.2 In the event of a tie between two or more competitors at the end of the Championship the following tiebreak procedure will be adopted in the sequence shown, until a result is obtained:

- (a) The number of class records broken will be counted
- (b) The number of best places will be counted.

(c) The competitor who scored their Championship total points first will be deemed the winner.

(d) Should none of these methods be effective, the Championship Organisers will specify the method of solution

1.6.3 Championship Points Appeal in accordance with C6.5 of the Motorsport UK Yearbook.

Any query regarding the results must be made to the Championship Co-ordinator within 7 days of the results being published (on the web site), after which no alterations to the scores will be considered except for cases taken to the Motorsport UK Motor Sports Council National Court.

To be eligible for championship points, competing vehicles must carry the championship decals provided, in accordance with the advertising rules set out in Section H(29) of the 2021 Motorsports UK Yearbook. Where the vehicle bodywork does not allow compliance with Section H(29) then the championship decals should be displayed in as clear and visible position as possible.

Each qualifying event will run under its own Supplementary Regulations and championship competitors will be bound by these SRs, the General Regulations of Motorsport UK and these Championship Regulations

Competitors in the individual qualifying events will take part in the appropriate class for their vehicle for the awards offered at that event. Where classes at an event do not match the HSA Championship classes the results will be re-structured into the HSA Championship classes for scoring purposes

- 3.2 For the purposes of Championship scoring, vehicles will be divided into the following classes:

Notes:

Tyres on vehicles in Class A2.1 must comply with List 1A (Section L: Permitted tyres) appearing in the 2021 Motorsport UK Yearbook.

Tyres on vehicles in Classes A1, A2, A3, A4 B1 and B2 must comply with List 1A and List 1B (Section L: Permitted tyres) appearing in the 2021 Motorsport UK Yearbook but to include radial construction tyres only. Tyres on vehicles in Classes

U1, U2 and V2 must either comply with List 1A or List 1B or List 1C, in which case they must be radial construction tyres, or be cross ply tyres of a make and specification which was available before 31.12.1975.

All vehicles in Road Car classes must be taxed, insured and, where relevant, hold a current MOT test certificate.

The use of slick tyres is prohibited in Class W.

Vehicles with spaceframe chassis are excluded from Classes C1, C2 and C3.

Formula Ford 1600 vehicles in Class J1 must comply with the Technical Regulations published by the Ford Motor Co. for the Formula.

Eligibility issues will be reviewed by the Eligibility Scrutineer. To avoid eligibility problems, it is advisable for all cars (except Road-Going categories) to carry a Motorsport UK logbook. In the event of an unresolved eligibility problem, the driver of the car concerned may be asked to produce a manufacturer's catalogue within four weeks of the event in question to substantiate any queried modification/specification and allow the championship points to stand.

The Championship organisers reserve the right to merge or sub-divide classes at the commencement of the Championship, should entries justify this.

During 2020, and because of Covid-19 concerns, some events used a starting procedure whereby the timing strut of each car was not aligned as precisely with the two start-line timing beams as had been normal in previous years. However, there was little or no evidence of a "1 metre box" technique being used. The HSA Committee considers that any advantage which may or may not be gained by any relaxation in starting alignment during 2021 will be marginal. Therefore times set at all Championship rounds during 2021 will potentially be eligible for the setting of new HSA class records, and the scoring at each round will be based on the actual times recorded at the event, irrespective of the start-line procedure adopted by the organiser of the event, and whether or not the event organiser determines that such times may qualify for venue class or outright records.

- 3.3 Drivers must comply with Section S(9) of the 2021 Motorsport UK Yearbook at all times.

4. ENVIRONMENTAL CONCERNS

Motorsport UK are exceedingly concerned of the impact of single-use plastic tyre wrapping and with reusable alternatives available competitors are encouraged to reduce plastic usage in this regard. Use of these plastic wraps is to be eradicated by 2023.
